KOH SAMUI Koh Samui is an island in the Gulf of Thailand, in the province of Surat Thani, located off the southeast coast of Thailand. Known as one of the most luxurious and popular resorts in Thailand but still retains many authentic aspects.

This tropical paradise is covered by a lush jungle of palm trees and coconut palms and a typical island landscape of white sand beaches and green hills. Discover its charms and traditions, navigating between some very touristic areas and authentic neighborhoods a few blocks away, populated by natives and offering typical local markets.

HISTORY The island was probably first inhabited about 15 centuries ago, settled by fishermen from the Malay Peninsula and southern China.

CITIES **CHAWENG** - Most popular area among tourists. You can enjoy the wide range of nightlife and shopping available. **LAMAI** - Well supplied with bars and restaurants, but in a quieter and generally less crowded environment. Sunday night Walking Street and Muay Thai boxing fights on Saturday night. **BOPHUT** and the famous Fisherman's Village - Perfect place for tourists to eat in many restaurants with high-quality European cuisine. Calm and relaxed atmosphere. Walking Street on Friday night. **MAE NAM** - Well supplied in restaurants too, wants to be very relaxed, and its beautiful beach is perfect for those looking for a beachfront hotel without getting too far from amenities or over-budgeting. **BANGRAK** - Most of the speedboat piers for various excursions, as well as departures (and arrivals) to the islands of Koh Phangan and Koh Tao. Many bars, restaurants, small shops. **CHOENG MON** - Temple surrounded by water, beautiful calm beach, relaxing shops and restaurants. **NATHON** is the capital city and main arrival of ferries connecting the island to the mainland. Not very touristic, but you will find the best bargains there and observe the 'real' life of the locals.

GEOGRAPHY Koh Samui is in the Gulf of Thailand, about 35 km northeast of Surat Thani town. To the far west are 44 other islands which together compose Ang Thong National Park which is accessible by a day-trip boat tour from Koh Samui.

The central part of Koh Samui is mostly tropical jungle. The various lowland and coastal areas are connected by the «Main road», encircling the island. Many other concrete roads branch off from Route to service other areas.

On the west coast of the island is the original capital, Nathon, which still houses many government offices. Nathon is the major port for fisheries and for vehicular and goods transportation from the mainland. As the site of the main port and the closest city to the mainland has made Nathon the commercial centre for Samui locals. More recently, the transition from dependence on the local coconut industry along with the continued growth and development of the tourist industry, as well as the northeastern location of the airport, has led to the increase of commercial activity in Chaweng and Bophut.

CLIMATE Samui has a tropical monsoon climate. The island has a dry season month, with the average monthly precipitation in February falling below 60 mm, the threshold for a tropical dry season month. The temperature is closer to an average of 28 °C.

The climate is warm and humid for most of the year. Koh Samui has only two months with more than 212 mm of rain to 506 mm. The heaviest precipitation typically falls in the months of October and November. For the rest of the year, given the tropical climate, rain showers are brief; 20-60 minutes duration is typical. Humidity is around 78-85%.
