THAILAND (MAINLAND)

### KOH SAMUI

is a tropical island located on the southeast coast of Thailand, in the Gulf of Thailand, within the province of Surat Thani. It's renowned as one of the most luxurious and sought-after resorts in Thailand, yet it still preserves its authentic charm. The island is adorned with a dense jungle of palm trees and coconut palms, and offers a picturesque island scenery of white sand beaches and green hills. Discover its alluring charm and unique traditions by exploring both the highly popular tourist areas and the quaint neighborhoods just a few blocks away, which are inhabited by locals and feature typical local markets.

### HISTORY

The island was likely first inhabited around 15 centuries ago by fishermen from the Malay Peninsula and southern China.

### GEOGRAPHY

Koh Samui is situated in the Gulf of Thailand, approximately 35 km northeast of Surat Thani town. To the far west lies the Ang Thong National Park, comprising 44 other islands, which can be accessed through a day-trip boat tour from Koh Samui.

The central part of Koh Samui is mostly covered by tropical jungle, with various lowland and coastal areas connected by the «Main roads» that encircle the island. Numerous concrete roads branch off from the Main road, servicing other areas.

Located on the west coast of the island, Nathon is the original capital and home to many government offices. It is also a major port for fisheries and transportation of vehicles and goods from the mainland. Nathon's proximity to the mainland and its role as the main port has made it the commercial hub for locals on Samui. However, the growth and development of the tourist industry, along with the decline of the local coconut industry and the northeastern location of the airport, has led to an increase in commercial activity in Chaweng and Bophut.

### NUMBERS

- To / from Donsak (35 km): 1 h 30 min by ferry
- To / from Koh Phangan (20 km): 30 min by ferry
- To / from Koh Tao (70 km): 2 h 30 min by ferry
- Area: 228.7 km², Population: 70,059 (2019)
- 90% Buddhist
- Highest point: 635 m (Khao Pomads)
- 25 km at its widest points
- Main road length: 50,1 km / 1 h 15 min
- First roads and first tourism in 1970s
- 2.7 million of tourists (2018)
- 2 million of coconuts exported per year
- Time zone: UTC+7 (ICT)
- Phone area code: +66
- Currency: Baht (THB or B)

- Yoga
- Thai cooking classes
- Restaurants
- Live concerts
- Nightlife
- Relax
- Idleness
- And more...

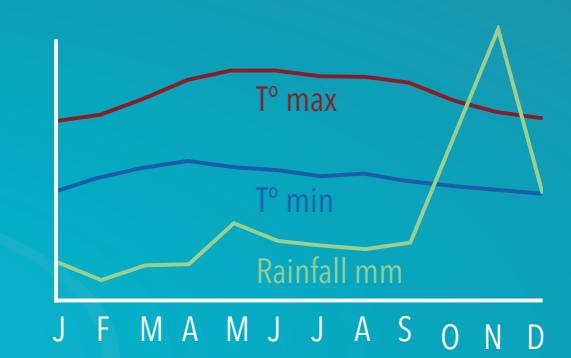

### CITIES

**CHAWENG** - If you're looking for a quieter and generally less crowded environment, then Lamai is a great option. Although it is well-supplied with bars and restaurants, the atmosphere is more relaxed. Don't miss the Sunday night Walking Street and Muay Thai boxing fights on Saturday night. **BOPHUT** and the famous Fisherman's Village - If you're looking for high-quality European cuisine, then Bophut and the Fisherman's Village are perfect places to dine. The area is known for its calm and relaxed atmosphere and you can also enjoy the Walking Street. **MAE NAM** - This area is also well-supplied with restaurants and has a very relaxed atmosphere. The beautiful beach is perfect for those looking for a beachfront hotel without overspending on amenities. **BANGRAK** - Most of the speedboat piers for various excursions, as well as departures (and arrivals) to the islands of Koh Phangan and Koh Tao, are located in Bangrak. You can also find many bars, restaurants, and small shops in the area. **CHOENG MON** - Famous for its temple surrounded by water and calm beach. **NATHON** - The capital city and the main arrival point for ferries connecting the island to the mainland. Although it is not very touristy, Nathon offers the best bargains and allows you to observe the real life of the locals.

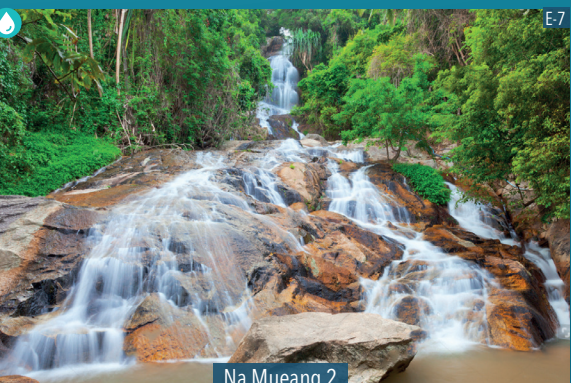

### CLIMATE

Koh Samui features a tropical monsoon climate, characterized by warm and humid conditions throughout most of the year. The island experiences a dry season, with the average monthly precipitation in February falling below 60 mm, which is the threshold for a tropical dry season month. The temperature averages around 28°C.

There are only two months on Koh Samui with over 212 mm to 506 mm of rainfall, which typically occur in October and November, during which the heaviest precipitation falls. Throughout the remainder of the year, rainfall is generally brief, with showers lasting between 20 and 60 minutes, consistent with the island's tropical climate. Humidity levels range between 78-85%.
